Mobilefest 2024 Highlights

Mobilefest 2024 took place from April 25th to 27th in İstanbul, Türkiye. The event brought together over 1,000 leaders and innovators from tech powerhouses and startups, exploring industry topics including AI, 5G, the Internet of Things, and cybersecurity. We appreciate the insightful discussions and meaningful connections made during this remarkable event. We extend our heartfelt thanks to all our visitors. As we move forward, we eagerly look forward to reconnecting with you at the next event.

Odine Receives Certification of Achievement for Phase 1 of 5G Mobile Communication Infrastructure Development at Mobilefest 2024

Odine proudly received the Certification of Achievement for the successful completion of Phase 1 of the 5G Mobile Communication Infrastructure Development Project on the first day of Mobilefest 2024. This prestigious recognition marks a significant milestone in our journey, reflecting our unwavering dedication to technological excellence and innovation. The completion of this phase not only highlights our capabilities and commitment to advancing 5G infrastructure but also sets a solid foundation for future advancements. We are excited to continue our efforts in this field.

Odine Honored with Gold Award for Technology Innovation at 2024 Accelerating Exports Awards

Odine has been honored with the gold award in the 'Technology Innovation' category at the 2024 Accelerating Exports Awards.

The winners of the award program, organized by the Service Exporters' Association (HİB) to promote technology innovation in Türkiye, were announced during the ceremony at Mobilefest 2024. We are delighted to be the winner of this award and to be recognized for our dedication to advancing technological innovation within the telecommunications sector.

This achievement reaffirms our commitment to driving progress and contributing to the future of our industry and beyond.

Celebrating the Successful Completion of Upgrade Operations on the Turkcell Network

We have celebrated the successful completion of upgrade operations on the Turkcell network as part of the Train program within the globally recognized Turkcell Telco Cloud Platform, known for its pioneering size and data processing capacity.

To commemorate this achievement, we gathered with the Turkcell Network teams in a moment of shared pride and celebration. This milestone underscores our commitment to excellence and innovation in the telecommunications sector.

We look forward to continuing our collaboration with Turkcell & Red Hat and achieving many more successes together in the future.

Odine and Logate Announce the Successful Deployment of Open Provider vAAA Platform in the Türk Telekom Network

Odine and Logate announce the successful deployment of Open Provider vAAA platform in the Türk Telekom network to provide better services for Türk Telekom's corporate customers. With the implementation of OpenProvider, Türk Telekom gained a convergent platform, able to handle the growing database of users, and to support the creation of different kinds of services, all while being easily scalable and redundant to ensure service quality.

Capacity Power 100 2024

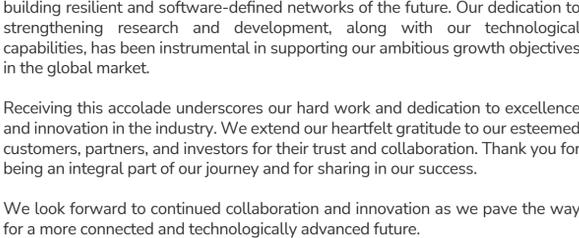

Odine, CEO, Alper Tunga Burak has been listed in the 2024 Capacity Power 100 Listing for the fourth year in a row.

Capacity 2024 Power 100 profiles the trailblazers, innovators and leaders driving the global digital infrastructure landscape. Under Burak's leadership, Odine has evolved into a global engineering powerhouse, specializing in software-defined data networks tailored for telecommunications companies.

His strategic direction has not only revolutionized telcos' perspectives on network software and cloudification but also led Odine to a successful IPO on the Borsa İstanbul Stock Exchange in March 2024.

CC-Global Awards 2024

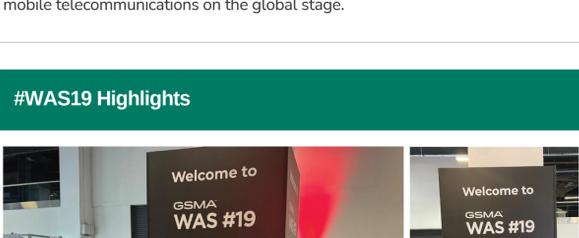

Odine has been honored with the "IPO Project of the Year" award at the CC-Global Awards, organized by Carrier's Industry.

This achievement stands as a testament to Odine's unwavering commitment to building resilient and software-defined networks of the future. Our dedication to strengthening research and development, along with our technological capabilities, has been instrumental in supporting our ambitious growth objectives in the global market.

Receiving this accolade underscores our hard work and dedication to excellence and innovation in the industry. We extend our heartfelt gratitude to our esteemed customers, partners, and investors for their trust and collaboration. Thank you for being an integral part of our journey and for sharing in our success.

We look forward to continued collaboration and innovation as we pave the way for a more connected and technologically advanced future.

Odine becomes a GSMA member

Odine has become a member of GSMA, the global association uniting the mobile telecommunications industry. As a member, Odine is committed to contributing to the advancement of the industry through collaboration with other leaders, participation in key discussions, and driving initiatives that shape the future of mobile technology worldwide.

We look forward to exploring new opportunities and contributing to the future of mobile telecommunications on the global stage.

#WAS19 Highlights

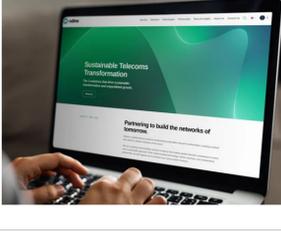

Odine participated in GSMA WAS#19, held in İstanbul, Türkiye, from April 16th to 18th, 2024.

The event provided an invaluable platform for fostering robust relationships and exchanging insights with esteemed colleagues across the industry. Discussions around key technological advancements, including eSIM, solutions for MVNOs and MVNEs, VoLTE, and the evolving landscape of roaming, illuminated pathways for future innovation and collaboration.

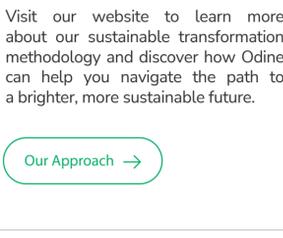

As we reflect on the enriching exchanges and knowledge gained, we eagerly anticipate reconvening at the next opportunity to further propel our industry forward.
